HOLLAND ROTARY TRANSPLANTER UNITS

All Rotary One Transplanter units include as standard equipment: Polymer furrow opener, polymer skid sled, six plant feeding cups, spacing sprockets, footrests, rubber packing wheels, continuous flow water valve.

When ordering Rotary Transplanter units, specify your choice of the following:

- Steel packing wheels in lieu of Rubber packing wheels.
- Start-Rite metered water valve in lieu of continuous flow water valve.
- Fiberglass molded seat or cushion padded seat
- Specify if rotary planter unit is to be used with Positive Drive Fertilizer attachments
